- Consistent revenue growth with detailed financials available upon request
- Executive team of managers for business development and day to day operations are in place
- In addition, dedicated team of experienced designers and engineers with a baseline defence clearance, ensuring seamless project delivery
- Equipped with state-of-the-art software ranging from 3D CAD systems through to reality capture methods, including debt free hardware design, data management system (PDM, MRP & ERP) experience and 3D visualisation and tools for cutting-edge design solutions
- Long-term relationships with top-tier clients across engineering, defence, and manufacturing sectors within Australia and Overseas (USA & NZ)
- Notable projects delivered with excellence, showcasing capability and credibility
- Fully operational with established processes, ready for immediate ownership

MARKET OPPORTUNITY & WHY THIS BUSINESS

- Australia's engineering sector is experiencing robust growth, driven by infrastructure development, urbanisation, and technological advancements. With a shortage of specialized design support services, this business is perfectly positioned to capitalize on the increasing demand. The new owner can leverage existing relationships and reputation to scale the business further.
- Australia's engineering and construction sectors are booming, with consistent demand for specialized design services.
- Consistent revenue growth and healthy profit margins
- Opportunities to expand services (e.g., opportunity to vertically integrate and expand into engineering consultancy services and/or delivery of turn key engineering projects with enhanced profitability).
- The current owner with his Executive Team is committed to a smooth transition, offering training and support to the new owner
- Efficient operations with low overhead costs, maximizing profitability.

THIS OPPORTUNITY IS IDEAL FOR:

- Entrepreneurs seeking a profitable, established business in the engineering sector
- Engineering firms looking to expand their service offerings or geographic reach
- Investors wanting a turnkey operation with strong growth potential
- Technically orientated owner who enjoys engineering design problems and working with a team of motivated designers to leverage their skills to solve customer problems

Don't miss this chance to acquire a thriving business in Australia's high-demand engineering sector. Whether you're looking to grow your portfolio or step into a rewarding entrepreneurial journey this business offers the perfect foundation for success.
