

Structural & Civil Engineering Consultancy for Sale - AF1590

Structural & Civil Engineering Consultancy for Sale in Ivanhoe

Established Since 1989 | Asking Price: $399,000

A premium opportunity is available to acquire a long-established structural and civil engineering consultancy delivering cost-effective and technically robust engineering solutions across a broad range of construction projects.

Founded in 1989, the practice has built a strong reputation for professional service delivery, innovative design capability, and close collaboration with architects, builders, developers, and construction professionals.

Strategically positioned within Melbourne's active development market, the business benefits from ongoing demand for structural design services, site investigations, compliance documentation, and civil engineering advisory solutions.

Investment Highlights

Established Industry Presence -

Operating for over three decades, the consultancy has developed enduring relationships within residential and commercial construction

sectors, supported by repeat clients and strong professional referrals.

Comprehensive Engineering Service Offering -

Services include structural design, civil design advisory, building design support, site investigations, underpinning solutions, and reinforced concrete assessments across a wide range of construction applications.

Technical Expertise & Innovative Solutions -

The business utilises modern structural design technologies and practical engineering methodologies to deliver efficient, compliant, and commercially viable project outcomes.

Diverse Project Exposure -

Projects span residential developments, commercial buildings, infrastructure-related works, and specialist structural consultancy assignments, creating a balanced and resilient revenue base.

Experienced Professional Capability -

With decades of engineering experience, the practice integrates technical, regulatory, and commercial expertise to support successful project delivery and adherence to building standards.

Strong Growth Potential -

Opportunities exist to expand into larger commercial developments, infrastructure projects, regional markets, and multidisciplinary engineering consulting services.

Business Overview

The sale represents a turnkey acquisition including:

• Established industry goodwill and professional reputation

• Active client database and referral networks

• Work-in-progress and forward project pipeline

• Engineering software systems and technical documentation templates

• Operational procedures and business systems

• Transition support to ensure smooth ownership continuity

Ideal Buyer

This opportunity will suit:

• Structural or civil engineers seeking practice ownership

• Engineering or architectural firms pursuing strategic expansion

• Construction or development companies seeking integrated in-house engineering capability

• Investors targeting professional services businesses with consistent demand.
