

Melbourne

\$250K+ Profit Test & Tag Business - PF1605

An outstanding opportunity to acquire a well-established Test & Tag business operational since 2011, servicing commercial clients across Melbourne, offering the perfect blend of recurring revenue, strong margins, and a genuinely flexible operating model.

Unlike many trade based businesses where the owner is required to personally complete every job, this business has been structured with a subcontractor-based delivery model, allowing the owner to focus on managing the business rather than working in it.

With established client relationships, ongoing compliance requirements, and a strong reputation in the market, this is an ideal acquisition for someone looking to secure a profitable service business with significant growth potential.

The Opportunity:

- Established Test & Tag business with a strong commercial client base and ongoing repeat work
- Existing contracts and relationships providing reliable workflow and revenue consistency
- A business model designed around delegation - jobs are allocated to experienced subcontractors, reducing the requirement for the owner to personally attend sites
- Perfect acquisition for an electrician, compliance operator, service business owner, or entrepreneur wanting a scalable business model
- Strong demand-driven industry - businesses are required to maintain electrical compliance testing as part of their workplace obligations
- Low complexity operation with no large staffing structure required
- Opportunity to continue growing through additional subcontractors, client acquisition, and expanding service areas

Price	\$500,000
Property Type	Business
Property ID	579

- Operates from a simple management structure, allowing flexibility and lifestyle benefits for the incoming owner.

Strong Financial Performance

The business has demonstrated exceptional profitability, generating approximately \$490,000 in revenue for the 2024/2025 financial year with an impressive reported net profit of approximately \$237,000.

The business continues to perform strongly, with the current financial year already recording approximately \$472,000 in revenue and a reported net profit of approximately \$249,000 up to 20 May 2026.

Why This Business Stands Out:

Most service businesses are built around the owner doing the work.

This one is different.

The foundation has already been created - clients are established, work is flowing, and the delivery model is in place. The incoming owner has the opportunity to step into an operating business and focus on managing growth rather than creating the business from scratch.

Whether you're looking for your first business acquisition, wanting to add a profitable compliance division to an existing operation, or simply seeking a business that provides strong returns with flexibility - this represents a rare opportunity.
